PPE

- Social Distancing
- Mask
- Personal Hygiene- wash hands, clean area

Properly wearing a mask

- ❑ Facemasks help limit the spread of germs. When someone talks, coughs, or sneezes they may release tiny drops into the air that can infect others. If someone is ill a face masks can reduce the number of germs that the wearer releases and can protect other people from becoming sick. A face mask also protects the wearer's nose and mouth from splashes or sprays of body fluids.

Face Mask with Ear loops: Hold the mask by the ear loops. Place a loop around each ear.

Face Mask with Ties: Bring the mask to your nose level and place the ties over the crown of your head and secure with a bow.

Face Mask with Bands: Hold the mask in your hand with the nosepiece or top of the mask at fingertips, allowing the headbands to hang freely below hands. Bring the mask to your nose level and pull the top strap over your head so that it rests over the crown of your head. Pull the bottom strap over your head so that it rests at the nape of your neck.

Mold or pinch the stiff edge to the shape of your nose.

If using a face mask with ties: Then take the bottom ties, one in each hand, and secure with a bow at the nape of your neck.

Pull the bottom of the mask over your mouth and chin.

The Rough

- Sick
- Death
- Social Isolation
- Media discrepancies- changes as new information comes forth
- Working amidst these uncertain times
- SO much time at home with those you live with
- Rollercoaster of emotions and mental state- Acute Stress

The Good

Taking advantage of the situation

- Families coming together
- Relationships growing at a rapid rate
- Getting to spend more time with loved ones e.g. significant other, family, pets
- “Running” from place to place, meeting to meeting, errand to errand... **HAS SLOWED SIGNIFICANTLY**
- Community coming together to help each other e.g. groceries, deliveries, mentally/emotionally
- Opportunity to take focus time to grow and be vulnerable
- Cooking at home
- Compassion for “wherever” others are and what they need
- Finding things to **APPRECIATE!**

Not to brag, but my commute to work is now 5 seconds and I'm still showing up late

Put your
positive
pants on!

It's Okay

- * To not know how to homeschool your own child
 - * To not know how to work from home
 - * To give kids more screen time than usual
- * To make a colorful daily schedule or just wing it
- * To not magically feel motivated to work out at home or take on a new hobby
 - * To not feel okay

This is not normal for any of us.
Please be kind to yourself.
